IWG·LILLOU  
WATER JEWELS

## Personalization

The handset's can be personalised with a logo, family crest or any other design element to complement the surrounding ambience with or without gemstones.

## Castone setting

A single stone handset into an independent piece of metal. The gem setter utilises the surrounding metal to create the prongs which secures the gemstone into place.

A poetic vision of travel...

IWG-Lilou's "Ceinture de luxe" are handcrafted by Italian jewellers and artisans guaranteeing, excellence in craftsmanship, durability and design.

## Ceinture de luxe

This simple and boldly designed Ceinture embodies the excellence of craftsmanship with brilliant white Swarovski gemstones in a Gypsy style setting offering a sensation of grace and elegance.

*24Kt. Gold plate and protective coating.*

One of the earliest methods of setting gemstones into jewelry, the Bezel setting features a thin band of metal completely surrounding the gem along its circumference offering superior protection from chipping,

*24Kt. Gold plate and protective coating.*

## Ceinture de luxe

The three loins of India stand proudly upon their decorative base centred with an exquisite Cabochon. The dramatic setting style creates the illusion of a larger stone emphasising the richness and brilliance of this majestic design.

## Ceinture de luxe

Capturing the essence of your airborne ambiance, IWG-Lilou offers unique solutions to personalize cabin accessories or to enhance already existing design elements.

A simple line of brilliant stones punctuated by a framed gemstone set into a plate of superior 935 silver.

# AMERETTA

COLLECTION

Thanks to the exceptionally diverse techniques and savoir-faire of our talented jewellers and craftsmen, our creations offer a twist to the norm, adding a touch of flamboyance to objects otherwise overlooked.

Initials set with gemstones nestled between black enamel curlycues worked into the gold plate.

**FLORENTINE**  
COLLECTION

The Fiorentina collection has captured the Maisons sense of Italian heritage with the use of curlycues taken from the Emblem of Florence, the *Fleur de lis*.

The emblems can be personalised and are created with enamel which is available in a variety of colours.

## SURFACE TREATMENTS

IWG-Lilou offers a variety of uniquely handcrafted surface treatments, gem-setting and *haute gamme* detailing that can be integrated into your VVIP cabin suite to create a more elegant and personalised ambiance elevating your in-flight experience to a new level.

Hand finished surface treatments including hammered, brushed and sanded metals well as classic Guillochè (typically used in watch and jewellery crafting).

These treatments not only add a touch of elegance but also assist in disguising light surface scratches.
